Hi Katrina,

I've attached my comments.

Also, for Figure 3 – OK maybe its Duh for me to not know the term “doctor” as applied to using lead to test for/reduce contaminate levels. But “Lead Additive Area” seems sufficient as a label for the area.

Subject: Early Action Proposed Plan Draft

All, thank you for being my review team. Please find attached the draft early action proposed plan for wilcox. Please dissect for me. I am beginning to go around in circles. If possible, please send me your thoughts by June 2. If not by then, please let me know when you might be able to review.

I have highlights to remind me about references, etc, so don't mind those. Also formatting will be put into a factsheet style, but not done here for ease of editing.

Thanks again for taking the time to assist.
